

snap fitness^{24/7} Base Build Concept

Please Note: this is a layout concept only based solely on the initial draft plan in order to assist with indicating possible placement and general quantity of equipment.

- Equipment items are placeholder only and do not represent or suggest any specific type.
- Any or all elements within this plan, such as: flooring areas, walls, rooms, mirrors, orientation, total areas, equipment mix, sled track or even the architectural plan itself will change.
- A more definitive and considered layout will be arrived at as suppliers provide their quotes for the 2D planning stage.
